

Project Profile

Project Title	New Gymnasium
Client	Birchwood Park Estates
Project Value	£600k
Contract Conditions	JCT Design and Build with novated design team
Duration	25 weeks
GHA Livigunn Services	Structural Design

Description

The new gymnasium was constructed as part of the ongoing strategy for improvement and redevelopment of Birchwood Park Estate.

The design was required to take into account the limitations of a tight site with existing buildings on two sides and main access roads on the other two.

The structure was designed to be independent of the adjoining buildings to allow for future redevelopment and used long span beams to minimise internal columns to maximise internal spaces and flexibility of layout.
