

Project Profile

Project Title	The Rookery, Bollington
Client	Cheshire Demolition Developments Limited
Project Value	£1.5m
Duration	90 weeks
GHA Livigunn Services	Structural survey and detailed structural design

Description

Extensive structural alteration work was required during the restoration of this former manor house and conversion into 5 dwellings. Earlier structural alteration work made extensive detailed intrusive investigation imperative to ensure that the overall stability and integrity of the structure was maintained. The potential of the property was further enhanced by creation of basement areas to provide additional utility space.
